

White Sphere seen in sky over Nottingham

MRS. BETTY DAVIES of Lenton Lane, Nottingham, was out walking her dog, Benjie, two nights ago near Charnwood Forest, when she reported seeing a white object in the sky.

"It approached from the south, and then seemed to hover over the centre of

Nottingham, before moving off in a westerly direction towards Birmingham," she said.

Mrs. Davies was alone at the time and her report was unsubstantiated until we received this photograph today.
