A woman living in the Vumba, who has a view into Mozambique, said she first sighted the thing about three months ago over the Chicamba dam. She said she saw the object on dark mornings between 2 o'clock and 3 o'clock and had watched it for more than two hours.

Another UFO sighting was by eight people in the Wiermouth area on May 14, 1980. Also March 28, that year a UFO was seen over Selbourne factory in Inyanga in the eastern Highlands.
