## Decline noted in UFO reports

MADRID (UPI) — More than 100 "Unidentified Flying Objects," including one the size of an oil tanker, were spotted in Spanish airspace in 1981, a UFO watcher said Saturday.

Juan Jose Benitez, a journalist and UFO enthusiast from Bilbao, said the 111 sightings represented a slight decrease compared to the previous year.

Benitez said the captain of an

Iberia jetliner reported he saw and received radar signals from "an enormous metal object as big as an oil tanker" off Spain's Atlantic coast last August.

The same supposed space alien was registered by the air control tower at Las Palmas on the Canary Islands, he said.

The air force had no comment.

## A UFO 'as big as an oil tanker'

MADRID (UPI) — More than 100 "Unidentified Flying Objects," including one the size of an oil tanker, were spotted in Spanish airspace in 1981, a UFO watcher said yesterday.

Juan Jose Benitez, a journalist and UFO enthusiast from Bilbao, said the 111 sightings represented a slight decrease compared to the previous year.

Benitez said the captain of a jetliner reported he saw and received radar signals from "an enormous metal object as big as an oil tanker" off Spain's Atlantic coast last August.

The same supposed space alien was registered by the air control tower at Las Palmas on the Canary Islands, he said.

Benitez said a dozen witnesses last February spotted a "bright shining arrow-shaped object" hovering over the sea, then watched it off without a sound.

The air force had no comment.
