

Hypnosis Reveals . . .

Five Terrifying 'Lost' Hours — Aboard a UFO

It was an encounter so terrifying that only under hypnosis could two Brazilian truck drivers recall the traumatic events of the night they mysteriously boarded a bizarre, spinning spacecraft.

Afraid that others would laugh at their horrifying experience, Alberto Seixas Vieira, 32, and Elias Seixas de Matos, 38, refused to talk about it until a year later when they met with UFO experts.

And those experts are convinced the two men were aboard a UFO.

Dr. Silvio Lago, a former professor of medicine at the Fluminense Federal University near Rio de Janeiro, hypnotically regressed the men and concluded: "Both have related facts which actually happened to them."

During their hair-raising UFO encounter on Sept. 25, 1980, the two men lost track of five hours.

And under hypnosis, both Vieira and de Matos tell the same spine-tingling tale of

'I've Floated Into a Big Wheel . . . An Ugly Man Is Flying Around the Room'

how a blue ray of light hit their truck and they were transported to a whirling ship commanded by a repulsively ugly man.

Shouting hysterically and soaked in sweat, a hypnotized Vieira gave Dr. Lago this account of the missing hours:

"What's happening? I've just floated into a big, spinning wheel with small win-

REPULSIVE creature with green triangular eyes stood at panel with colored lights. Alberto Seixas Vieira watched in horror as its head spun around on his body.

dows and a brilliant blue light.

"There is a screaming

sound like a high whistle and the ship is spinning.

"An ugly man is standing at a machine with a panel that has lots of colored lights. The man's so ugly I can hardly stand looking at him. His head is spinning around — but his body's not.

"He has two big, green, triangular eyes. He's nearly seven feet tall and he's wearing a uniform with a narrow belt that has lots of flashing buttons.

"The man's from space. He's flying around the room! I'm walking down a ramp from the ship. I'm back at the truck. I'm afraid. Help!"

And a hypnotized de Matos gave this account while he cried and panted:

"What's happening? I'm spinning around in a ray of blue light. I've entered a large egg-shaped object. There's a man sitting down at a table

in a large circular hall.

"He's wearing a uniform that clings to his skin. His eyes are funny — lilac-colored, but with no pupils. They are big, like wrap-around eyes. He's wearing a belt with a buckle that's full of colored flashing lights.

"He says he's taking me to his land. Through a window I can see a lot of funny little people with little gray beards and pointed eyes walking around. They're ugly! He's ugly!

"I'm walking down a ramp. I'm back at the truck."

Confirmed Irene Granchi, noted Brazilian UFO researcher: "While the men were under hypnosis, we learned that they spent five hours aboard a UFO."

Concluded Vieira: "I just want to forget it ever happened!"
