

UFO hunters wanted . . .

Wanted: True Yorkshiremen to help in the study of Unidentified Flying Objects.

Leeds-based U.F.O. investigator Mr. Graham W. Birdsall, who has been investigating the phenomenon since 1970, is seeking new members for the Yorkshire U.F.O. society.

Mr. Birdsall, of Miles Hill Street, Chapel-Allerton, Leeds (Leeds 484345) said the society, known as YufoS had one of the biggest memberships in the country.

Mr. Birdsall and his brother, Mark, have established themselves among the top U.F.O. investigators in Yorkshire. They collate information before sending it to a central data research unit at Oxford.

They have studied research techniques in the United States and keep informed of Russian research into U.F.O.s.

YufoS meets on Sunday afternoons in Centenary House, North Street, Leeds.
