

What's all this: UFO's ?

By JOHN CHRISTOPHER

TWO policemen have submitted a report about the night they saw an Unidentified Flying Object landing. And their senior officers believe them.

Constables Simon Holder and Tim Banks were on the beat in Monmouth, South Wales, when they saw the UFO.

"It was about the size of a star, flickering blue and white and emitting red flashes," they reported.

Suddenly two red objects fell from it. The UFO then sped off and vanished.

Seconds later there was a blinding white flash as the red objects hit the ground.

Police Constable Holder said he had been ribbed about the report. The object was not a plane nor a helicopter.

Chief Inspector Keith Harris said: "They saw something very odd in the sky. They are both very sensible men and trained observers."

A few days earlier a middle-aged couple driving home at night in the area reported seeing a "cottage loaf" shaped machine with flashing lights.
