

Are there aliens over Skegness?

THE SKEGNESS STANDARD

FRI, NOV 19

1982

MARSHALL Adams claims he had a close encounter with an alien space ship which he watched for ten minutes last Friday evening.

Marshall, 18, of Drummond Road, Skegness says he saw the "space ship" hovering over Grantham Drive at five past nine. It then moved off and headed towards the sea at a terrific speed but with no noise.

Marshall described the UFO as being much bigger than an aeroplane. "It was triangular", he said "with two lights at the front like a car's headlights and two lights at the back the same."

There was also a red flashing light on the craft.

Skegness Police station confirmed that they had received reports of the sighting.
