

WPCs launch a UFO hunt

TWO policewomen sparked off a flying saucer hunt after following flashing lights in their car.

Male colleagues also saw the lights and heard strange noises.

The women, who asked

not to be named, said they followed the lights from the Hartcliffe area of Bristol to a village two miles away.

"Another light joined it and they went straight upwards," said one.

Sgt Ian Lock said he saw flashing lights and heard a roaring noise in the Bedminster area.

A police spokesman said they had failed to trace the mystery objects through the Defence Ministry or local airports.
