JAKARTA: July 16 (DPA) — An unidentified flying object moving "very low without making any sound" has been sighted in Mataram the Indonesian island of Lombok, "Kompas" newspaper said Saturday.

It was clearly observed by four children and a servant of a local dentist at nine in the evening, the paper said.

The children reported it was "well illuminated" and had "a hole in the middle from which fire came out". It moved very fast and disappeared while they tried to warn their parents.
