

SPACESHIP RIDDLE

DEEPENS

MINISTRY of Defence officials confirmed last night they had received an amazing report that a UFO landed near an air base.

The sighting claim was filed by American air force colonel Charles Halt, who said he saw bright lights and a space machine at Woodbridge, Suffolk, in December 1980.

A Ministry spokesman said no record of the colonel's report had been kept.

But he added: "All

UFO sightings are passed on to the RAF staff for further investigation."

In the private report, Colonel Halt said he and others saw a red ball of light in the sky.

He went on: "All of a sudden it exploded. The place was filled with an explosion of colours.

"When they died down, there was a machine, hovering on legs."
