U.F.O.

RASAL KHAIMAH: An unidentified flying object emitting powerful light beams was sighted here on Monday night. Residents said the rectangular shaped U.F.O. remained in the area for nearly two hours. Police and aviation sources reported no interruption in telecommunication traffic but pictures taken by photographers turned blank mysteriously. —

Dear Sir,

Please find pasted a cutting from the newspaper, "The Tribune". This cutting appeared in this newspaper somewhere in 1st week of December ^(2.12.83). I wrote to the Head Office of this newspaper to enquire about the place where the UFOs ~~who~~ were seen, but, till today I have no reply from them. ~~As~~ ~~reason~~ From the name it seems that Rasal Khaimah must be somewhere in the middle East.

I would have submitted it to you much earlier but, some unexpected, unavoidable incidents occurred in the last week of December, due to which it was delayed.

Please also send me my Awareness issues 2,3 & 4 for which I have been waiting for long.

Last time I wrote you about visiting the Airforce Radar stations for UFO reports. I am sorry to tell you that I could not get the reports again. They term them as highly confidential and are not revealed to the public. Don't worry I will try again in the end of this month.

Hope that every thing is fine at your end.

Yours Sincerely,
Ajay Mehra
