

# Fladbury UFO sighting?

Five Vale people believe that a mystery object that sped noiselessly across the sky over Fladbury last Thursday night may have been a UFO.

Mr and Mrs Duncan Hands and Mr and Mrs Jock Loudoun had just arrived for an 8 p.m. business meeting at the home of Mr David Loudoun when the strange object flew overhead. The five of them were standing midway between their cars and the house when it appeared.

"I have never seen anything like it before," said Mr Hands. "It was like three large cigar shapes stuck together, travelling in a dead straight line with no noise at all. And it was completely black."

The object was flying low and at a considerable speed, he said, and was unlike any aircraft any of them had ever seen. It was still daylight and the UFO was clearly visible for about two minutes.

Mr Hands and his wife stared in amazement together with Mr and Mrs Jock Loudoun and their son, David. "None of us are lunatics and none of us had been drinking," said Mr Hands.

The matter is now being investigated by a Worcester UFO society who said there have been a number of sightings in this area recently but never before in daylight.
