

Seen any UFOs around lately?

³⁹² An East Side woman, Wanda Todd, says she's seen what she believes is a UFO four times in the past few months. She describes it as being brighter than a star, moving south in the eastern sky. It goes forward, backward, up and down, she says. And it only ap-

pears between 1 and 3:30 a.m.

The *Journal-American* wants to know if others have seen it or something else recently that they think could be a UFO. If so, call Bob Welch at 453-4245 between 9 a.m. and 6 p.m. before Thursday. Thanks.
