- 8 NOV .

## 'UFO' spotters come forward

Coun. Dick Shirt was not alone when he saw strange lights in the sky on October 28.

Since his appeal in last week's Chronicle, he has been contacted by almost a dozen other Barnsley residents confirming the sighting.

Said Coun. Shirt: "With my son seeing the lights at the same time as myself, I felt sure some others would come forward.

"When the sighting report form comes through from the RAF I shall send photocopies to all those who have contacted me so they can all go together".

Coun. Shirt also hopes to send copies to a voluntary organisation which monitors and investigates sightings of unidentified flying objects.
