

UFO

terror for - 5 JAN 1986 a family

A GIANT UFO moving at incredible speeds terrorised a family of four, trapping them in their home for three hours, it was claimed yesterday.

The family said the huge disc-shaped object, lit with an unearthly glow, buzzed their remote farmhouse as they crouched behind the windows.

Their close encounter with terror began as the local businessman and his 11-year-old son drove home to Edgworth, near Bolton, Lancashire.

By ALAN RIMMER

As they approached the farmhouse they saw an enormous glowing object, about 500ft in diameter.

The man bolted into the house with his son, where he found his wife and daughter in hysterics.

Later, the man said

that he felt as though the object had "pushed" him into the house.

He immediately called Air Traffic Control at Manchester Airport, but was told there was nothing showing on the radar screens covering the area.

UFO investigator Steve Balon said: "It is most significant that so many witnesses saw this object."
