UFO 'had red flashing lights'

A UFO was sighted on the same night a businessman and his family were terrorised for three hours in their remote farmhouse by a UFO.

Shaun Trencher and his girlfriend Evette Boyle were walking from Abbey Village to Withnell when they saw a large round object with flashing red lights head over them towards Brinscail.

"We watched it for about 20 minutes, then lost sight of it when it shot off at the speed of light towards Chorley.

"We saw it again about 10 minutes later. We saw it hovering over the woods," said Mr Trencher, of Station Terrace, Abbey Village.

"We told friends about it, but they laughed. But when we read about the other sighting on the same night, we thought it may be the same UFO."

The businessman, from Darwen, lives in Edgworth.
