

UFOs play ball

THE Brazilian government scrambled fighter planes to chase multicoloured UFOs the size of ping-pong balls that sped over three cities, the head of Brazil's air force said last night.

Air Force Minister Otavio Moreira Lima said: "I can't give an explanation for this because we don't have any.

"Since they had saturated our radar system in Sao Paulo

and were interfering with air traffic, we decided to send up planes to pursue them," he said.

"One of the pilots reported seeing objects that were multi-coloured. He said 13 accompanied his aircraft, seven on one side and six on the other.

Another pilot described the UFOs as "the shape and size of ping-pong balls flying at 840 mph."
