

RISK: Queen

Queen is an Arab!

By MURRAY DAVIES

THE Queen and members of the Royal Family are direct descendants from the Moslem prophet Mohammed.

And that is why Arab terrorists have never tried to attack them, claims Burke's Peerage, the guide to Britain's aristocracy.

But the new breed of Arab gunmen have scant respect for religious traditions — and this is putting the Queen at risk.

Harold Brooks-Baker, Burke's Peerage publishing director, said yesterday: "The Royal Family's descent from Mohammed cannot be relied upon to protect them for ever."

He has asked Premier Margaret Thatcher to set up a Royal Commission into the security surrounding the Royal Family.
