Return of the ⁴⁸ jumbo UFO

A JAPAN Air Lines pilot who said his cargo jet was shadowed by a huge unidentified flying object over Alaska in November has reported another sighting.

JAL said today they were studying the report.

Captain Kenjyu Ter-ruchi and his co-pilot re-ported the sighting of lights on a jumbo flight from London.

"His statement to the controller was 'irregular lights, looks like a space-ship'," said a Federal Aviation Administra-tive spokesman who added, "there may be an easy explanation for Sunday's sighting — light reflecting off ice crystals in the atmo-sphere."
