## How Commander Conrad put police on UFO alert

COMMANDER Conrad and his UFO were declared non-hostile yesterday after the sudden landing caused a police alert.

The intrepid commander was officially identified as six-year-old Lee Conrad Parkhill, owner of an authentic looking flying saucer built by his 39-year-old video engineer father Denis and a friend.

For nearly an hour space ship enthusiast Lee, who prefers to be known as Commander Conrad when he dons his metallic grey suit and climbs aboard for a make-

believe trip round the galaxy, alarmed workers on a factory site near Hereford.

Passers-by alerted the local radio station and the mystery was solved only when police officers were sent to investigate.

His mother, 39-year-old Mrs Pat Parkhill, said at her home in nearby Shelwick: 'Lee and his father had taken the spaceship to waste ground to photograph it on land with a moonscape appearance. It was a tremendous surprise when the police arrived.'

A police spokesman said: 'We had a bit of a chuckle ourselves.'
