

Did the aliens warn Neil Armstrong off the Moon?

Five Americans have captured a crashed UFO (identified flying object) with four dead aliens inside it, claims the author of a startling new book about flying saucers, Timothy Good.

American spaceships have constantly been shadowed by UFOs, he says, but astronauts have been forbidden to talk about it. And when astronauts Neil Armstrong and "Buzz" Aldrin stepped on to the Moon in 1969, he claims they were watched by two huge UFOs that were sitting on the edge of a crater.

THE DISGRACED ex-President Richard Nixon is still astonishingly widespread, rational and venomous in America—"the same kind of irrational hatred that survivors of the Holocaust and Stalin in Germany and Russia felt toward their persecutors"—says retired *York Times* foreign correspondent C L Sulzberger in a serious study of Nixon's role in diplomatic history, *THE WORLD AND RICHARD NIXON* (Simon & Schuster,

page against the fallen leader is unbalanced, suggests Sulzberger who rightly believes that Nixon's personal and political failings he will be judged more kindly by history as a foreign affairs statesman, particularly in his dealings with the Soviet Union and Russia.

He quotes Dr Henry Kissinger's view of Nixon: "He was a great man; he deeply believed in America's mission to protect the world's security and freedom."

Majestic 12—that investigates reports of UFO sightings, then covers them up to prevent public panic.

● That although Neil Armstrong continually denies the report about UFOs on the moon, he has privately confessed that the Americans "were warned off" the Moon by the UFOs and that "there was never any question then of a space station or a Moon city" because "their ships were far superior to ours."

● That in Britain there are so many hundreds of UFO sightings each year that a secret 30-man Ministry of Defence UFO tracking station and research centre at RAF Rudloe Manor in Wiltshire is manned 24 hours a day—and that he was arrested at midnight when he started nosing around the area.

● That Prince Philip believes in UFOs and has told him: "There are many reasons to believe that they do exist. There is so much evidence from reliable witnesses."

Prince Philip is so interested in the subject, says Mr Good, that he regularly receives the magazine *Flying Saucer Review* and ordered a

copy of Mr Good's previous UFO book *George Adamski—The Untold Story*.

His uncle Lord Mountbatten was also fascinated by UFOs and seems to have been convinced that a flying saucer landed on his estate at Broadlands in Hampshire in 1955.

SURVIVE

Mountbatten, yet another Admiral of the Fleet and Chief of the Defence Staff, even said of UFOs: "If they really come over in a big way, that may settle the capitalist-communist war. If the human race wishes to survive they may have to band together"—a point that was reiterated two years ago by President Reagan in a conversation with Russian leader Gorbachev at Geneva.

Does Reagan know something sensational about UFOs? Does Gorbachev? Are our leaders hiding something from us all?

Timothy Good insists they are—and the wild, weird case he argues in **ABOVE TOP SECRET: The Worldwide UFO Cover-up** (Sidgwick, £14.95) includes scores of stories of world wide UFO sightings and contacts (by ordinary mortals, Russians,

Chinese, even President Jimmy Carter) that are sometimes difficult to explain—like the 1984 sighting over Stanmore in Middlesex by no fewer than eight policemen, for as long as two hours.

What to make of it all? I'm still sceptical, but millions aren't. Even Air Chief Marshal Lord Dowding once said of UFOs: "I am convinced that these objects do exist and that they are not manufactured by any nation on Earth."

And as recently as 1985 the Zimbabwe air force scrambled two Hawk jets to try to intercept, in vain, a UFO that was tracked on radar above Bulawayo.

Zimbabwe Air Commodore David Thorne told Mr Good: "As far as my Air Staff are concerned, we believe implicitly that the unexplained UFOs are from some civilization beyond our planet."
