

# Dozens in Georgia watch UFO pay second visit!

Thousands of people are flocking each night to rural roads in eastern Georgia, hoping to catch a glimpse of a mysterious aircraft that could have come only from outer space!

The alien spaceship is a huge cigar-shaped object that has been spotted by dozens of reliable witnesses, including a deputy sheriff. It has enormous white and red lights and hovers in the air over Sylvania, Ga., a small community just over the South Carolina border.

"We've seen it numerous times," housewife Wanda Alcorn, 37, told *The NEWS*. "It's huge — it's like a tractor trailer with the ends rounded. It has huge white belly lights and these humongous red lights along the side.

"It has no wings, no tail and it makes no sound, except a zip sound when it accelerates. When it landed in the field behind our house it left marks from its landing pods that were about nine feet by nine feet square. Everyone that sees it sees the same thing. All the drawings of it by witnesses are the same."

The incredible spacecraft was first spotted on July 13 by Mrs. Alcorn, a mother of three, and her husband, sheriff's deputy Frank Alcorn. Almost simultaneously a half

mile away, her brother and his family spotted the spaceship moving slowly across a country field, hovering about 10 feet above the ground.

Mrs. Alcorn reported the sighting to authorities and news got out. The following night, hundreds of neighbors lined the roads, awaiting the return of the UFO.

"Half the county showed up to watch and in a while it came over our field," Mrs. Alcorn said. "Everybody saw it — neighbors four miles away watched it. Its lights were so bright it made trees look like they weren't there.

"It's a dark metallic color, a real sight to see. It was more than 69 feet long. It would move real slow, then all of a sudden, zip, it would disappear.

"It was so strange, you can't

imagine, but it must not have wanted to hurt anybody because it had ample opportunity and didn't do anything."

Mrs. Alcorn said UFO investigators planned to visit the area soon to unravel the mystery of the giant craft.

"It's not scary, but I'm curious," Mrs. Alcorn said. "I'd like to know what it is."

SKETCH by an eyewitness shows an oblong-shaped craft with brilliant white lights and red lights along the side. The UFO has no wings, no tail and makes no sound, witnesses said.
