Saturday is UFO Day in Belleville

291***

Belleville is taking advantage of its notoriety as the premier locale for UFOs.

I noted last week's Belleville Recorder had an article about that community's UFO Day, scheduled for Oct. 31.

On that Halloween Saturday, the article said, "1,000 to 10,000 people are expected to converge on Belleville . . . Many of these people will be aliens or people dressed like aliens. No one will know for sure who is a real person or who is an alien."

"Belleville, recently host to many UFO sightings, is going all out to attract you and all living creatures throughout the universe to this event."

On Saturday, October 31, (Halloween) 1,000 to 10,000 people are expected to converge on Belleville. Many of these people will be aliens, or people dressed like aliens. No one will know for sure who is a real person or who is an alien.

Belleville, recently host to many UFO sightings, is going all out to attract you and all living creatures throughout the universe to this event. It is expected that things from out of this world will appear that day as final proof of the existence of UFO's and related creatures.

Rumors persist that various space vehicles will be built in the area and available for inspection if sighted.
