## Odd lights reported over Dexter

By MARK C. PEYKO  
NEWS SPECIAL WRITER

The calls have mostly begun like this: "Well, you're not going to believe this... and I'm not crazy but..."

Washtenaw County Sheriff's dispatcher D.G. French started receiving calls intermittently from about 8:30 p.m., Saturday, concerning what people describe as UFO activity in Dexter.

One person described it as "lights in the sky following them." Another was more descriptive: "lights doing aerobatics over Portage Lake."

French said that in one of the dozen calls which he received, a woman claimed that these lights had "followed her home three miles from the store."

Although police weren't sure of the lights' origins, they speculated that it was from a store's promotional lighting.

Two Washtenaw County officers, Sgts. Wenk and Rider, also saw the restless lights at different times from their police cars. Both said the strange lights were store promotion lights.

"Gene Butman Ford Sales in Ypsilanti had lights on about two weeks ago," French said.
