

UFO scare

ALARMED Notts people besieged police with calls after spotting a UFO in the south of the county last week.

One witness described a "huge shape the size of a football pitch" drifting over houses, showing several lights underneath and dragging one light behind it.

Several calls were received from people in the Arnold, Calverton and Ravenshead areas during last Wednesday night.

Many said that the UFO made a loud humming noise as it travelled towards open countryside to the east.

No aircraft were in the area at the time

and officials admit they are baffled by the sighting.

● UFO sightings have been most common in

the Pleasley areas, although many have turned out to be unusually bright stars or planets.
