

ARMY TO PROBE UFO MYSTERY

ARMY chiefs are investigating reports that brightly coloured UFOs have been buzzing Department of Defence installations.

The brilliant yellow round objects, which occasionally emit smoke, have been spotted several times by people living at Oldmill in Kill, Co. Kildare.

Peter Geraghty, 28, of Oldmill, said: "I saw two or three objects hovering in the sky. They descended slowly then vanished behind a hill, lighting up the sky."

There are Army posts in the area.

Philip Goldrich, 35, from Naas, who was visiting friends locally, said: "I saw the objects floating above the hills. I've no idea what they were."

And Owen McQuail, of Spectrum, the Irish UFO-research group based in Dublin, revealed a formation of five or six circular objects was seen over Dun Laoghaire. "We seem to be in the middle of a spate of sightings," he added.
