spot

a UFO

PLYMOUTH folk this week spotted what they think is a UFO high above Stoke.

The flying object flashed with strange orange and white lights as it hovered at about 1,000 feet over the city.

It was visible for about 20 seconds as it moved across the night sky at great speed making a humming noise.

It was spotted by painter and decorator Ian Love, of Stuart Road, who was so worried by what he saw he phoned the police.

It was also seen by his wife Sue and their two kids.
