

UFO joins in bicentennial

POLICE in Sydney said today that two groups of people reported separate encounters with a UFO yesterday.

A family of four claimed their car was chased by an egg cup-shaped flying object along a remote highway, plucked from the ground and covered in a sort of volcanic ash. The crew of a tuna boat 50 miles away said they too were buzzed by an unidentified flying object yesterday, and that their voices became blurred as a result.

Colin Norris, director of the Adelaide-based Australian UFO Research Centre, the oldest such organisation in Australia, said he took the report seriously.
