## After family's Nullarbor 'encounter' ...

# NOW BOAT CREW SEES UFO

**Police have received a second report of a UFO sighting in the SA-WA border region.**

The crew of a Port Lincoln-based tuna boat said they were "buzzed" by a UFO early yesterday.

Their reported sighting occurred about 30 minutes after a WA woman, Faye Knowles, and her three sons, Sean, Wayne and Patrick, claimed they were harassed by a UFO.

The family was flown to Adelaide after reportedly signing a deal with Channel Seven for exclusive rights to the story.

Station officials said the family had been taken to a secret location after being contacted by station officials who flew to Mundrabilla, near where the incident took place.

Police said the crew of the Port Lincoln fishing boat Empress Star reported their sighting of the UFO to a spotter plane.

They said a crew member was on deck when a bright light approached the boat.

He alerted six other crewmen and all saw the light, which hovered above their craft before moving off.
