FRIEND OR FOE IN THE UFO?

SIR: The latest sightings of a UFO (BEN, Jan 21) could well be possible, especially as the sighting was near a transmitter.

Visitors from outer space could be attracted by radio waves and, maybe, wish to make contact with us to find out what we know.

On the other hand, it could be "unfriendly" aircraft from our own world trying to dupe "simple-minded" folk (as they probably label us) of these moorland towns, into thinking they are really flying saucers.

In this way, they would be able to

hills are alive -

THE BRIGHT lights of the key path into insignificance compared to the lights over Belmont Moor.

The BEN and local (Brighton News) have been described with such about the strange light.

There says that over the past two weeks there has been more than a dozen such from people in the Horwack and Belmont areas.

With 20 years in (Ufology) behind him, Steve said: "It all started off with Mrs. Dorothy Louise from (Dunstable) spotting a bright light from her (Hickon) window. I went up there to speak to her and found it was not astronomical.

"I checked with air traffic control in Manchester and the Met. Office in Stockport and it was well explained.

"The started an analysis of such concentrated in Horwack and Belmont. There are different people

'The Moors are the ideal place

● *Flashback to the BEN story about the latest UFO sighting*

have a good look at our country.

The Ministry of defence is said to be holding an inquiry. I am not surprised. A similar incident to the latest one occurred at Nottingham

when some space "visitors" questioned a group of young soldiers. The soldiers were later booted out of the Army.

All I am saying is, try to keep an open mind on the matter.

If everything is safe and all right, then I will follow these happenings on the moors with great interest and curiosity.
