'Spacecraft' spotters 2374.

ON the night of January 21, my brother Jonathan and I gazed in amazement as a UFO flew past us. It was round with flashing lights and wasn't a plane or helicopter.

It flew across from Wrocclesham sandpit and past our house. Mum and Dad didn't believe us until they saw an article in the "News" about UFO sightings.

We have both seen a spacecraft before. Please believe us — Scott Burnett (aged 13), Wrocclesham Hill, Wrocclesham, Farnham.
