Saw UFO

³⁷⁴
MORE UFOs over Spalding? A Spalding teenager claims to have seen a mystery flying object over the town at 6 pm Thursday, January 21. Thirteen-year-old Ashley (who doesn't wish to be fully named) saw the mystery object with four lights, white, blue, orange and green when watching the moon through a telescope.

Ashley said: "I watched for about five minutes, and the lights were in a circle, and then split up into two parts."
