

Police saw UFO hover overhead

TWO Sheffield police officers watched as a UFO hovered above their headquarters.

Pcs Susan Jackson and John Boam ran out to catch a glimpse of the mystery object as scores of reported sightings flooded into Ecclesfield police station.

Two minutes after jumping into her Panda car, Susan, 29, found the

bright red V-shaped craft hovering above her head.

"I had the car engine running and could still hear it whirring above. It had rows and rows of flashing red lights all around it," she said.

A few hundred yards away outside the police station, Pc John Boam saw the spaceship hover for 30 seconds before flying off towards Grenoside.

Whirring

As he watched in amazement, he heard Susan radio her control room to report her close encounter.

Officers in the control room laughed in disbelief until they too heard the whirring noises that accompanied the ship.

As the eerie sight disappeared, the Pcs checked with RAF Finningley in an unsuccessful bid to solve the mystery.

Local UFO expert Michael Hanson had three

calls from UFO society members who spotted the mystery craft at Kimberworth Park and above Shardlows steel works, at Blackburn Meadows.
