

New wave of UFO sightings in area

MORE sightings of UFOs have been reported in the Rotherham and Sheffield area, with dozens of people seeing objects in the sky over Thorpe Hesley and Ecclesfield.

Local men Martin Vernon and Paul Leach stopped their car to watch what they say was a giant

flying saucer hovering over Carr House Hill in Rotherham.

"I was driving along at about 7pm when we suddenly spotted a massive white, cream object with flashing lights in the sky," said Martin, aged 25, of Whitegate Walk, Rockingham.
