

UFO hunter in call for witnesses

UFO Investigator David Clarke is looking for witnesses to an object that appeared in the skies over Ecclesfield earlier this month.

The UFO appeared over Rotherham first then appeared to move over Ecclesfield before disappearing in the direction of Wharncliffe side.

Mr Clarke, aged 21, an archaeology student at Sheffield University, who lives at Old Retford Road, Handsworth, wants anyone who saw the V-shaped object in the sky on February 2 to leave a message for him on 0904 444049 so he can contact them.

He said a similar object was seen by about 30 people in the Derby area in August. Mr Clarke who works for the Independent UFO network said he had checked with the Ministry of Defence on that occasion and they had no record of any official flight.
