

Tea-hee . . . how the teabag UFO might look

Teabag UFO zaps Pauline

SCHOOLGIRL Pauline Emerson was stirred up yesterday—after a close encounter with a teabag-shaped UFO.

Pauline, 14, was feeding animals in her garden when the smelly spaceship—black with little perforations—zoomed within five yards of her.

Now she is off school and taking tranquillisers to get over the shock.

Yesterday she said: "It was like a teabag. It was so black it shone out. The smell was really disgusting.

"Charlie, my horse,

was trembling and my radio went off."

Her mum Barbara was inside their home near Godmanchester, Cambs, at the time and remembers it shaking and the sensation of oxygen being sucked from it.

An education welfare officer who interviewed Pauline afterwards said: "She is a truthful kid, she wouldn't make this up."

Earlier this week a school dinner lady reported UFOs shaped like oranges flying over Beeston, Notts.
