Lecture at UNC includes UFO facts

Robert Hastings will present "UFOs - The Hidden History" at 7 p.m. May 2 at the University of Northern Colorado. The lecture, sponsored by the University Program Council, will be in the University Center Ballroom, 10th Avenue and 20th Street.

Hastings will present emerging facts compiled by himself and other researchers. His program is based on more than 10,000 pages of declassified military and government documents obtained through the Freedom of Information Act. The material was once part of the secret files of the CIA, Defense Intelligence Agency, FBI, and U.S. Air Force.

The UFO presentation at UNC will include a slide-tape program, an illustrated lecture, and a question and answer session. Tickets may be purchased at the University Center Box Office, 351-2835. The cost is \$2 for UNC and Aims Community College students, UNC staff and faculty, and persons under 18 and over 65. The price is \$3 for all others.
