## Bodies found in UFO crash

By NIGEL NELSON, Political Editor

A SHADOWY Close Encounters-type organisation is keeping the lid on mind-boggling secrets from Outer Space, The People can reveal.

The hush-hush group — code named PI 40 — is keeping tabs on alien visitors.

And they have the task of briefing every incoming U.S. President on the latest contacts.

A new report is now being prepared for President Ronald Reagan's successor.

It will reveal how:

- CONTACT has been made with aliens from another solar system.
- ALIEN bodies from a crashed spaceship have been recovered.

Ever since the project was set up in 1947, a cover-up has gone on.

### Backlash

The boffins fear worldwide panic or a massive religious backlash.

Nuclear physicist Stanton Friedman called it a "cosmic Watergate."

A parallel group has been set up in Russia.

Incredible? That's what we thought until we made exhaustive checks.

It began when a series of documents marked TOP SECRET were handed to me in the House of Lords. They tell of a UFO crash in 1947.

They revealed:

● Four small human-like beings had apparently ejected from the craft before it exploded.

All four were dead and badly decomposed due to predators and exposure to the elements before their discovery.

They were referred to as "Extra-terrestrial Biological Entities", the first known ETs.

UFO expert Timothy Good, revealed the existence of an earlier UFO monitoring group, Majestic 12, in his book Above Top Secret.

He said: "It now seems indisputable that the U.S. authorities have actual alien bodies."
