More UFO sightings reported

WESTPOINT — A resident's sighting of a bright, globe-shaped object in the sky last week has sparked similar reports in the area and visits from people interested in the phenomenon.

Coy Luna, 59, said he's glad he wasn't the only

one who apparently saw a shiny object but is getting a bit tired of receiving telephone calls and showing people where the object was.

Luna called the Lawrence County Sheriff's Department after seeing an object streak toward the sky from a clearing behind his house on the morning of June 6.

"I didn't call to report this," said Luna. "I just wanted to know if anyone else had seen it. I probably wouldn't have called if I'd known it was going to get blown up so big. I haven't had a moment's peace for the phone a'ringing."

In addition to Luna, six members of a nearby church said they saw an object while going home from a service one day before Luna's sighting, and several others in the state also reported seeing an object the night of June 6.
