Meteor reported

BLACK LICK — A report of a possible meteor strike in the Black Lick area was investigated Saturday night.

Blacklick Township Fire Chief Larry Stone said he was advised that persons near the Helen Mine portal had observed a ball of fire about four feet in diameter fall to the earth around 9:45 p.m. Saturday.

Chief Stone said he went to the area of the reported sighting but could find no evidence of the supposed meteor.

"It could have been a meteor, fireworks or anything — I couldn't find any fire or any evidence," said Chief Stone.
