Saucer riddle

FLYING SAUCER experts are still baffled by unique video shots of a dazzling light.

One week after amateur photographer Jerry Twaites snapped the mysterious visitors apparently hovering in a silver ship over the city centre, investigators from the British UFO Association are no nearer explaining what he saw.

"They want a copy so they can get it analysed," said Jerry from Great Holm.

And more bashful eye witnesses have come forward.

"It looked like a silver egg that tapered at one end," said Cheryl Bowen of Emerson Valley.

And Richard Davy of Downs Barn commented: "It didn't look like any normal phenomenon."
