

Friends sight mystery object

Veterinary assistant Miss Jane Fries believes she saw a UFO from her home at Rodgebrook Farm, Whitehouse Lane, Newport, on Monday evening.

It was dusk when Jayne, and friends Andrew McDonald and Valerie Morris, spotted a bright white disc in the western sky.

"The object seemed to come towards us, turn sharply to the right, exposing two flashing red lights at its rear, then shot off north at tremendous speed after ten minutes," she said.
