# Some more strange sightings

DID you have a close encounter at Burnham on September 23? If the answer is yes, the East Anglian UFO Group would like to hear from you.

Staff manning the UFO Hotline are anxious to talk to anyone who saw a UFO over the riverside town that Friday.

It was spotted by over 200 people at a caravan rally in the town and eyewitness accounts describe the sighting as "a triangular shaped object with white and three red lights".

The UFO was seen travelling towards Maldon at great speed, where more people saw it. Their accounts claim the object was last seen heading towards Chelmsford.

Anyone in Chelmsford who may have seen the UFO, or others who witnessed it in the Dengie Hundred, is asked to contact Brenda Butler on the UFO Hotline, telephone (0728) 830757.

UFO Group staff would also be grateful if anyone who saw a circle of red, blue, green and yellow lights; or a large dome-shaped object with lights around the outmost edges, a Colchester, on October 4, could contact them.

Approximately 30 people saw this object, a spokesman for the centre said.
