Black Baron grounded

PC

Guardian

11/11/88

An amateur pilot, who has been dubbed the Black Baron for his illegal night-time flights over Paris, was grounded by a French court yesterday. Albert Maltret, aged 52, whose exploits during last summer infuriated the government and caused a massive manhunt, was fined £5,000 and banned from flying for three years for buzzing the Champs Elysées last month. — Reuter.
