## Couple claim UFO sighting over town

An unidentified flying object with pulsating lights has been seen over Swindon this week.

James Fisher and his wife Doris watched it from the bedroom window of their home in Poplar Avenue, Pinehurst, for more than 20 minutes.

"It was like a chandelier hanging in the sky with red and green lights which changed brightness, a mass of lights in a south-westerly direction and high in the sky Mr Fisher said."

RAF Lyneham lies roughly in that direction from Swindon but a station spokesman did not know of any aircraft that could have resulted in such a sighting.

The couple's sighting follows reports of a UFO over the Cotswolds from members of the public and a policeman.
