Did anyone else see the UFO?

ON January 31, a newspaper published a small item of news with regard to the police being alerted to a reported sighting of a UFO over the Weald. Although I was not one of the people who reported it, I saw the

object flying over Northfleet during the early evening of the previous night. I would be most interested to know what the official explanation was, as to what it could have been.

More so, as the jokes in my family

about little green men are wearing a bit thin.

Did ANYONE else living locally see the flying object?
