## Nothing happening so far!

A RESEARCH group armed with heat sensors, infra-red cameras and video equipment is ready to swing in to action to investigate unexplained happenings.

They say that many people in the Swindon

area have experienced supernatural events.

The Borderland Phenomena Research Group is run by Paul Horwood, of Oaksey Road, Penhill, and has eight members.

Ghosts, unidentified flying objects and pol-

tergeists are all on their list of subjects for possible investigation.

Paul, who is a postman, told a reporter: "Rumours are circulating about a UFO seen over Ashton Keynes and also another over Pinchurst.

"If anyone has seen anything unusual in the skies recently then please contact me on Swindon 727122.

"We will investigate the sightings and will create a full report with hopefully, an eventual identification of the phenomena.
