

WHY haven't the aliens invaded Earth yet? Because, explains UFO expert Tom Weber, they're too polite. They're waiting for earthlings to invite them!

Mr. Weber is building the perfect ET invitation: a huge landing pad in Chippewa Falls, Wisconsin.

Not exactly the likeliest future capital of the Universe, you say? Tom picked it because there have been lots of UFO sightings in the

area, many by himself. Yes, he does live there, and he'd like contributions towards the £33 million the landing pad will cost.
