Aliens flash mercy crew!

2574
AN ambulance crew were buzzed by aliens when a UFO homed in on their flashing blue light.

It communicated with the two-man team in a bizarre hour-long exchange of red, white, blue and green flashing lights.

Shocked ambulancemen Stuart Golding, 30, and Walter Gorse, 42, were followed by the mystery object as they returned to base early yesterday.

The close encounter, on a housing estate in Heywood, Greater Manchester, was shared by a taxi driver and four stunned bobbies.

Only when they covered a flash light with a red plastic bag and blinked at the invader did it vanish.

Added Stuart: "This sounds incredible, I know, but it is all true."

A police spokesman said: "We have checked with Manchester Airport and they say there was no unusual activity on their radar screens at that time."
