

# UFO sighted in Ulster

*Belfast Telegraph 11/7/89*

TWO separate sightings of an unidentified flying object have been reported in the skies over Ulster.

Several people watched the object for around 10 minutes high in the sky over Millisle and East Belfast.

It was first sighted over Millisle, Co Down around 4pm yesterday and again in East Belfast around 6pm.

Reports said the UFO had no definite

shape but appeared to be revolving quickly and shimmered in the sun.

One man from the Knock area of Belfast said he was watching a vapour trail from a jet when the strange object appeared in its wake.

The Civil Aviation Authority at Aldergrove said it had no reports from aircraft about any unusual activity in the air yesterday.
